

## **STOLEN SKID STEER**

*Posted September 14, 2018*

Around August 9th after 21:00 a skid steer was stolen from a locked Quonset approximately 8 miles east of Forty Mile Park. The person(s) responsible would have loaded it onto a trailer on site and hauled it away.

The Skid Steer is described as a 2012 ASV PT-80 with serial number PT101136. Primary colors are black and yellow. The unit had a 72" bucket, broken front windshield, and a hole/patches in the front fuel tank.

Picture of the actual unit to the right.

As always, please keep your eyes open for any suspicious activity in your areas and continue to document what was seen. We appreciate everything that you do to keep our communities safe.
